## BA (Hons) Music - What Next?

Each year we conduct a survey of our alumni who graduated almost four years earlier, to find out what they did after leaving us. The results for graduates from our BA (Hons) Music programme over the last three years were as follows:

Graduating Year	Total No. of Graduates	Traced	Working in Performing Arts		Doing Something Else
2007	35	24	17	5	2
2006	29	22	18	3	1
2005	45	37	33	2	2

This means that we traced an average of 76% of our graduates, and 82% of those were working in the performing arts industry.

The 2007 graduates that we contacted in spring/summer 2011 included a member of a band performing at major festivals such as Glastonbury and touring China, Musical Director for an international tour of *Evita* and a Radio Producer for a Venezuelan radio station. You can see what our 2007 graduates were doing by following the link and clicking on the snapshots document.
